Sir:

INFORMATION DISCLOSURE STATEMENT
UNDER 37 C.F.R. § 1.56

Pursuant to Applicants' duty of disclosure required under 37 C.F.R. § 1.56, Applicants are submitting the enclosed, completed PTO forms 1449 as required by 37 C.F.R. § 1.97 and 1.98. The filing of this Information Disclosure Statement should not be construed as a representation that a search has been made or as an admission that the listed references are prior art for this application. Applicants respectfully request that the listed references be expressly considered during prosecution of the application, and that the references be made of record therein and appear among the "references cited" on any patents issuing therefrom.

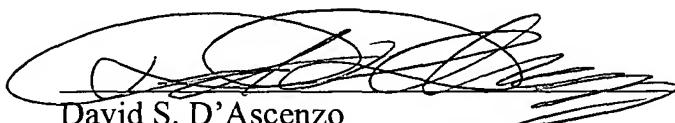

This Information Disclosure Statement includes 11 pages of PTO-1449 forms; however, it does not include copies of the references listed on

the forms, as permitted under 37 C.F.R. § 1.98(d), because copies already were provided in an earlier U.S. application (Serial No. 10/196,329, now U.S. Patent No. 6,596,057), or a priority application thereto, that is relied on here for an earlier effective filing date under 35 U.S.C. § 120.

For each foreign document for which there is no translation, a concise statement of relevance or an English language abstract is already of record in the previously cited patent and applications identified above.

Applicants recognize that there are many references listed in the enclosed PTO 1449 Forms. However, Applicants have prosecuted, and are prosecuting dozens of applications related to the field of fuel processing systems and fuel cell systems. Accordingly, Applicants have received quite a volume of references and frequently receive new information from Applicants' own searches, the U.S. Patent and Trademark Office and foreign patent offices. Applicants appreciate in advance the Examiner's time and understanding.

Respectfully submitted,
KOLISCH HARTWELL, P.C.
